Enerplus announces cash distribution for February 2009

TSX: ERF.UN
NYSE: ERF

CALGARY, Jan. 30 /CNW/ - Enerplus Resources Fund ("Enerplus") announces that the monthly cash distribution payable on February 20, 2009 to all Enerplus unitholders of record on February 10, 2009 has been lowered to \$0.18 per unit from the previous amount of \$0.25 per unit. The ex-distribution date for this payment is February 6, 2009.

Enerplus currently has one of the strongest balance sheets in the oil and gas sector. Over the past two months, crude oil and natural gas prices have continued to decrease. With this continued commodity price downturn, combined with on-going uncertainty in the capital markets, we believe it is prudent to reduce distributions to unitholders at this time.

We believe this will preserve our balance sheet advantage and continue to keep us in a position to improve our asset base through acquisitions. It is our intention to minimize increases in our debt levels outside of any acquisition activities within the context of current spot prices (which are in the range of US\$40-\$45/bbl for WTI crude oil, CDN\$5.00-\$5.50/mcf for AECO natural gas, and 1.22 for the CDN/USD exchange rate).

The CDN\$0.18 per unit distribution is equivalent to approximately US\$0.15 per unit if converted using a Canadian/US dollar exchange ratio of 1.22. The U.S. dollar equivalent distribution will be based upon the actual Canadian/US exchange rate applied on the payment date and will be net of any Canadian withholding taxes that may apply.

Holder of Enerplus Exchangeable Limited Partnership Class B units (formerly Focus Limited Partnership Class B units) of record on February 10, 2009 will be eligible to receive a distribution of CDN\$0.0765 per unit on February 20, 2009 based on the exchange ratio of 0.425 of an Enerplus trust unit for each Enerplus Exchangeable Limited Partnership Class B unit.
